To Whom It May Concern,

I had the opportunity on March 02, 2001 to observe the condition of the NAPS facility at Fort Hope.

A strong odour of human waste was apparent in the air. This odour originated from the backed-up toilets in the cells. Further, due to a lack of space, the back door is blocked. There is a hole in the floor in the bathroom.

I have concerns about the effect all of this has on the people who are locked up here by the police. I believe the police are reluctant to inflict this experience on the people but they feel they have no choice in many instances.

The dignity of the people, the community and the police requires a remedy.

Sincerely,

Thomas A. Logan  
Justice of the Peace
